Product Overview

VTC 7200 features powerful new generation Intel® Core™ processor i7-4650U/i5-4300U/i3-4010U. Its CPU performance gives the users the ability to adapt to what they need in any telematics applications. Its Intel® HD graphics 5000 engine allows users to fully take advantage of VTC 7200 to achieve smooth, seamless and stunning graphic performance on 3 different video outputs (VGA, DP, LVDS). VTC 7200 is equipped with 2 externally accessible SSD/HDD trays; users can easily download or upload the data on other devices by just removing the storage devices from VTC 7200. By integrating the variety of I/O ports and 4x Mini-PCIe sockets expansibility, VTC 7200 is not only suitable for video surveillance application, but also can meet the demand for other telematics applications, such as infotainment, fleet management and dispatching system. With dual SIM cards support, VTC 7200 allows three SIM cards backup each other for a better connectivity quality by software. In addition, three SIM cards + dual WWAN modules architecture can increase the bandwidth for a faster data transfer speed. Not only data transmission, VTC 7200 also supports two-way voice communication. Equipped with intelligent power management, VTC 7200 can be waked on by ignition, RTC timer or SMS/Ring remotely.
